Webmaster Tool

We provide webmasters a simple way to tell us the topics of your websites. Here are the simple steps:

1. Create a text file named **sssttopics.txt**. Enter a list of topics (up to 20 topics) about your site separated by newlines. If the topic is not in English, make sure it is encoded in UTF-8.
2. Upload **sssttopics.txt** to your domain and make sure that you can access it through [http://\(www.\)yourdomain.com/sssttopics.txt](http://(www.)yourdomain.com/sssttopics.txt). (Example: <http://www.similarsitesearch.com/sssttopics.txt>)
3. Our bot will check the file automatically. If you want us to check it now, please use the following form to submit your domain. (Do NOT include the link to **sssttopics.txt**)

The advantages of this tool:

1. Because your site is verified, we will immediately boost the ranking of your domain, increasing the probability of your site being found.
2. Because your topics provide a more accurate description, our similar search engine will be able to put your site together with other sites that are very similar to yours.
3. Your website will be indexed with the topics you provided. Therefore, it can be found by users of SimilarSiteSearch searching with those topics.

Enter your Domain:
